

Home Health Agencies

Home Health agencies provide part-time and intermittent skilled nursing and other therapeutic services on a visiting basis to individuals in their homes. Services are prescribed by a physician for people who have medical needs and have difficulty leaving their home to receive services. These services are usually set up when they are discharged from a hospital or nursing home but could be requested as needed.

Services are provided by Registered Nurses, Licensed Practical Nurses, Physical Therapist, Occupational Therapists, Speech Therapists, Home Health Aides/CNA, and Social Workers

Home health providers may help with:

- Skilled care: wound care, urinary catheterization; teaching safe use of assistive devices, physical therapy, transferring techniques, or gait training; medication management for a patient with a complex medical condition, etc.

Cost of services may be covered through:

- Medicare, Medicaid, private health insurance, long term care insurance, Veteran benefits, private pay

Training and Regulation:

- Home Health providers have training, certifications, and/or licensure specific to their profession and duties.
- Home Health Agencies are licensed and regulated by the WI Department of Health Services Division of Quality Assurance.
